## About This Content

Heroes are forged in times of crisis. The fate of empires can turn on the actions of a single individual.

Heroes are a new type of card for your Trade Deck. When you acquire a Hero, it goes directly into play instead of into your discard pile. Then the Hero awaits your command to rally their allies and give your turn a boost.

This expansion contains 12 cards: 2 Cunning Captain, 1 Admiral Rasmussen, 2 Ram Pilot, 1 Blob Overlord, 2 War Elder, 1 High Priest Lyle, 2 Special Ops Director and 1 CEO Torres.

### MISSION 43: FISH OUT OF WATER

PROVE YOUR WORTH TO THE BLOBS

You are Captain Cherise McCain Delahunty, fifth daughter of Imperial Duke Bryan Delahunty, and self-professed Trader Queen. You will always remember where you were when the star Varyan 19-G exploded. In the middle of an illegal trade deal with the Blobs within the Varyan system, your ships were crippled and left without life support.

Adds a new interesting mechanic to the game - Heroes go immediately into play and can be scrapped to activate other faction bonuses, plus an ability on the side.

Though honestly, I almost never use the Machine Cult heroes to trigger abilities, just the sweet, sweet early-game scrapping. If you can scrap a viper on turn one, do it.. I bought the pack and its not showing, Restarted Steam and Pc, what am I doing wrong?. Confused. Purchased this and now it says I need to log in to use it. That being said, I can't log in because the login times out after 0 milliseconds (the games words, not mine). What can I do?. I am confused I have purchased all the dlc but I dont have access to the hero cards are they only in play for campaign mode or something?
